RELEVANT SKILLS

- Excellent communication skills
- Analytical and problem solving skills
- Proficiency in HTML5, CSS3 and JavaScript
- Familiar with front end frameworks such as Bootstrap, React
- Understanding of operating system concepts and experience with Linux, Windows, or macOS
- Clear understanding of version control systems like Git
- Willingness to learn
- Flexibility to adjust to changing requirements, technologies, or project conditions.

SUMMARY

Detail-oriented and motivated front-end developer seeking an opportunity to leverage skills in HTM, CSs and JavaScript to contribute to dynamic web development projects. Eager to gain hands on experience and grow within a collaborative team environment

EDUCATION HISTORY

Bachelors of Engineering Degree in Computer Science and Technology
Ocean University of China
2018-2022

PROJECTS

Project Title: To-DoList Web Application
Description: Developed a responsive web application for managing tasks and to-do lists using HTML, CSS, and JavaScript. Implemented key features such as task creation, deletion, and updating, along with sorting and filtering functionalities. Designed a clean and intuitive user interface to enhance usability.
Technologies Used: HTML, CSS, JavaScript
Role: Sole developer
Project Link: https://misscidella.github.io/to-do-list/
Key Contributions:

- Designed and implemented the user interface layout and styling using CSS, ensuring a visually appealing and intuitive experience for users.
- Utilized JavaScript to add interactivity to the application, including dynamic task management features and responsive behavior.
- Implemented data storage anid retrieval mechanisms to save and load task data locally, enhancing user experience and data persistence.
- Collaborated with users to gather feedback and iterate on features, resulting in an improved and refined application.
